

Complex PDF Conversion Validation

Mixed fonts, colors, sizes, bullets, and long paragraphs

Helvetica body paragraph with practical service desk narrative text.

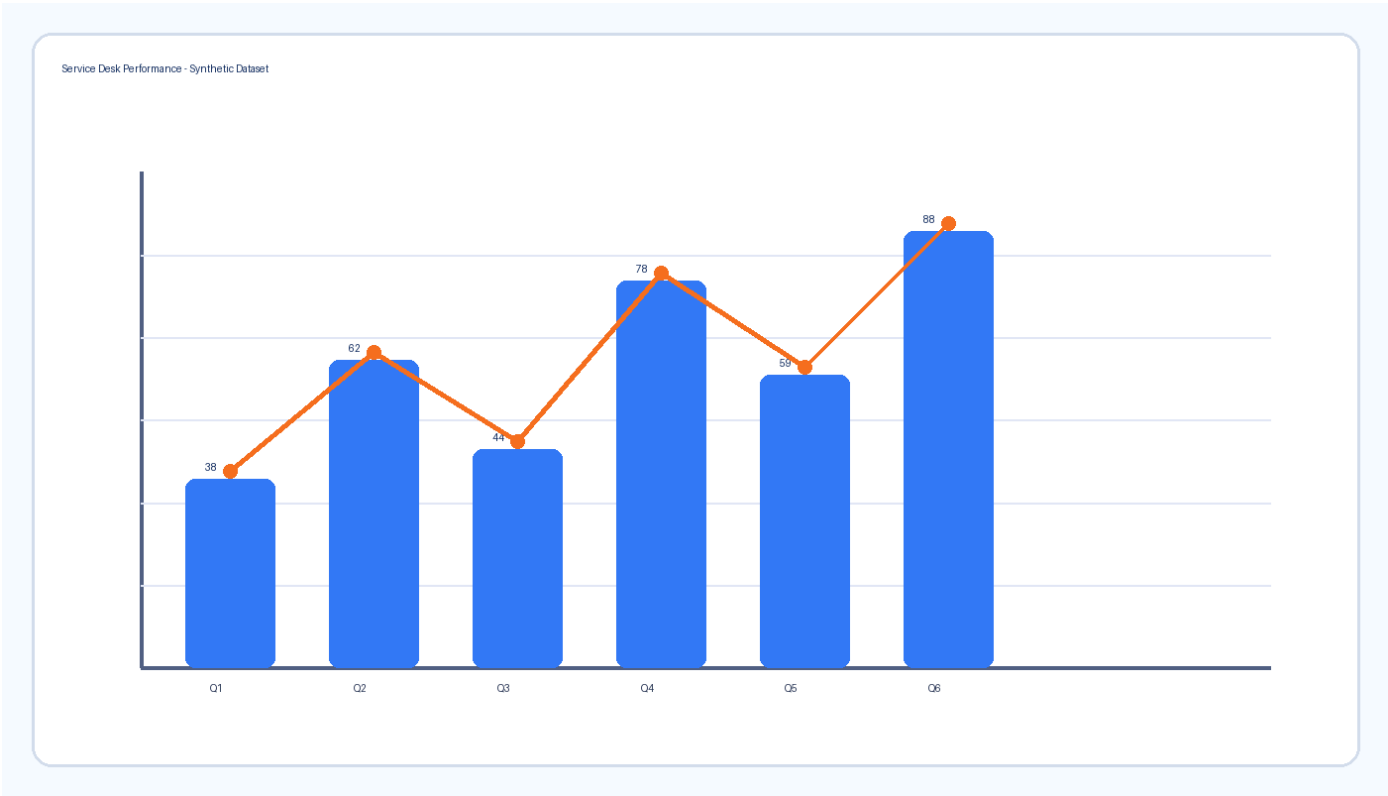

Courier segment for pseudo-code: `if ticket.priority == 'P1': escalate()`

Times-Roman line in blue for stylistic contrast.

- Validate manager permissions against AD group membership.
- Track override comments with timestamp + approver ID.
- Publish markdown output nightly to MkDocs repository.

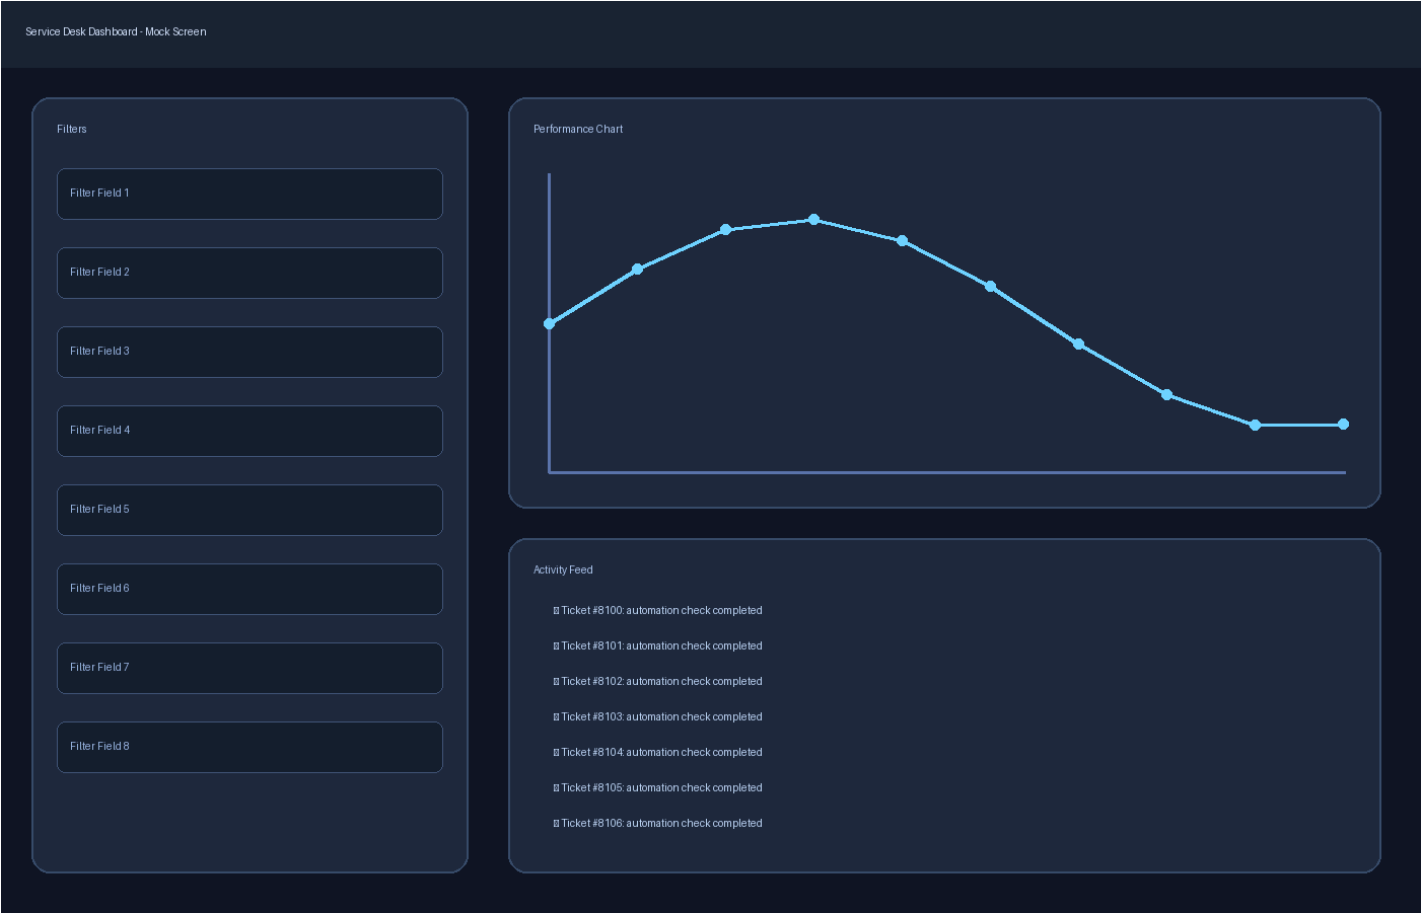

Embedded Graph Example

Bar + trend chart image should be preserved in markdown assets.

This section includes a long paragraph beneath the chart to test reading order and line reflow behavior when converted to markdown. The converter should preserve semantic readability even when line wraps differ from original PDF layout.

UI Snapshot + Text Grid

Metric	Q1	Q2	Delta
Tickets Closed	431	509	+18%
First Contact Resolution	68%	74%	+6pp
Average Handle Time	11m 02s	9m 47s	-1m 15s
